

For 1 Star Test

The National Federation needs to make an application to AIBA to use a National Event as a qualification event for AIBA 1 Star R&J.

An international tournament, organized by your Federation, including competitions of EUBC calendar (except those selected by AIBA and EUBC for 1 to 2 Star and 2 to 3 Star assessments) can be also proposed as qualification event for 1 Star R&J. In this case, we suggest informing other NFs participating at your tournament by mentioning in the invitation the organization of R&J test for AIBA 1 Star qualification so that other NFs could use this opportunity for the assessment of their referees and judges.

The respective National Federations will select the R&Js to take the test to become a 1 Star R&J.

Application process defined by AIBA for the R&J submission and qualification must be followed. Each applicant is required to officiate ten bouts as Judge and five times as Referee plus the written examination. This procedure is the same for each R&J assessment regardless of the assessment's level.

For 2 Star Test

AIBA R&J Commission, with the approval of the AIBA Executive Committee, designates for each continent multi-national tournaments where 1 Star R&Js can be assessed to become 2 Star R&Js.

The applicants for the assessment need to be sent by their National Federation to this tournament within boxing national delegation or in quality of neutral R&J.

For 3 Star Test

2 Star R&Js who wish to qualify as a 3 Star R&J will need to participate in the Workshop organized by AIBA (and the AIBA R&J Commission) prior to an AIBA Controlled Event. The Workshop is usually held around the tournament with an examination at the end.

The applicants for the assessment need to be sent by their National Federation to this tournament within boxing national delegation or in quality of neutral R&J.

General conditions

The cost for an assessment is US\$ 100 per person, to be paid to the International R&J Instructor present during any tournament.
